# Final Programme

## WELCOME MESSAGES

---

Dear MIPS Family,

It gives me great pleasure, as the President, to invite you to the TENTH MIPS Annual meeting, MIPS 2025. This year we will go to the beautiful city of Istanbul, Turkey's economic, cultural and historic capital. The city is a global hub for tourists with its unique geographical location straddling the Bosphorus Strait as the boundary between Europe and Asia and historical monuments from the Byzantine, Latin and Ottoman era. The meeting will be held on 20-22 November 2025.

Congratulations to our Host Chair: Professor Fulya Dokmeci and Co-Chair: Dr. Esra Cetinkaya, whom I am sure, will organize an excellent meeting to build on the outstanding success of our previous meetings. The scientific programme will be granted CME credits by the EACCME, and the conference proceedings will be published in Urogynecology, the official journal of the American Urogynecologic Society (AUGS). The topics include the most recent advances in female and male pelvic floor medicine with multi-disciplinary sessions tailored to health care provider's educational needs and training priorities as well as patient care in Mediterranean countries. This year, we will also hold parallel workshops of the Turkish Continence Society that would be very interesting to our Turkish colleagues. We are currently working on the final scientific programme and hope to publish the first announcement by the fourth week of February on the MIPS website.

See you all in Istanbul in November 2025!

**Daa Rizk, MIPS President**

Dear Colleagues,

We are delighted to invite you to the MIPS Annual Congress 2025, taking place from November 20th to 22nd in Istanbul. This year, the Mediterranean Incontinence & Pelvic Floor Society (MIPS) will focus on "Innovation & Current Developments in the Management of Urogenital Disorders". The congress offers an exceptional opportunity to stay updated on the latest

recommendations and advancements in the field, presented by world-renowned experts.

The three-day scientific program features a variety of engaging sessions, including mini keynote lectures, case-based discussion panels, and video presentations by leading experts. Additionally, selected oral presentations will provide a platform for young researchers to share their work, fostering collaboration and innovation. The program is designed to facilitate dynamic interactions among esteemed experts and participants, with hands-on workshops aimed at enhancing strategies for managing complex cases. Topics will span the latest advancements in the prevention, diagnosis, and treatment of female and male pelvic floor dysfunctions and their complications, presented in a multidisciplinary framework.

We are thrilled to host the 10th MIPS Annual Meeting in Türkiye for the first time. Istanbul, a city where history meets breathtaking natural beauty, will be the perfect backdrop for this event. Known for its unique location bridging Europe and Asia, Istanbul in November offers a quieter ambiance, vibrant autumn foliage, and an excellent opportunity to observe migratory birds along the Bosphorus and in the city's tranquil parks and gardens.

With its rich history, iconic landmarks, and stunning Bosphorus views, Istanbul promises to be a remarkable destination. We warmly invite colleagues from around the globe to join us for this unforgettable experience. The 2025 MIPS Congress will feature an interactive and multidisciplinary scientific program exploring the latest innovations in the field of pelvic floor disorders. We are also grateful to the Turkish Continence Society for their valuable contributions, including a concurrent half-day symposium on November 20th.

Thank you, and we look forward to welcoming you to Istanbul for a scientifically enriching and culturally memorable event!

Best regards

**Fulya Dökmeçi, Meeting Chair, Ş. Esra Çetinkaya, Meeting Co-Chair**

**Symposium of the Turkish Continence Society: Surgical Treatments of Stress Urinary Incontinence Surgery in Females & Males - NON CME**

**09:00 - 09:10 | Opening Ceremony**

**Hall A**

**09:10 - 09:55 | Stress urinary incontinence surgery-Female - NON CME**

**Hall A**

09:10 Continence mechanism and physiopathology of stress type incontinence in female

09:25 Choosing surgical technique based on preoperative findings; How does invasive urodynamics help us?

09:40 Surgical treatment of SUL with concomitant symptomatic POP

09:55 Discussion

**10:10 - 10:40 | Mesh complications following MUS; How to manage?**

**Hall A**

10:10 Pain

10:20 Obstruction

10:30 Erosion/extrusion

**10:40 - 11:20 | Panel: Persistent SUL in ISD (+) fixed urethra**

**Hall A**

10:40 Pubovaginal Sling

10:50 Re-MUS

11:00 Urethral Bulking Agents

11:10 Artificial Urinary Sphincter

**09:20-11:20 | Workshop 1: Nursing in Urogynecology - NON CME**

**Hall B**

09:20 Clean Intermittent Self-Catheterization - Self-Catheterization

09:50 Clean Intermittent Self-Catheterization - Case Reports

10:10 OASIs and its management

10:30 Innovative approaches in urogynecology: Digital health, mobile applications and future vision

10:50 Mobile applications in urinary incontinence - Research reports

11:00 Discussion

**11:20 - 11:35 Coffee Break**

**11:35 - 13:00 | Stress urinary incontinence surgery-Male - NON CME**

**Hall A**

**11:35 - 11:55 | Keynote Lecture**

**Hall A**

11:35 Physiopathology of postprostatectomy incontinence and preoperative techniques for prevention

**11:55 - 13:00 | Panel: Management of PPI**

**Hall A**

11:55 Conservative approach; diapers, clamps, pads and catheters

12:05 Pelvic Floor Muscle Training and medical treatment

12:15 Slings

12:30 Artificial Urinary Sphincter

12:45 Management of PPI in patients with recurrent bladder neck contracture

**13:00 -13:30 Break**

**13:30 - 14:00 | MIPS 2025 Opening ceremony**

**Hall A**

**14:00 - 15:30 | Session 1: Urethral Structural Disorders in Women & Men**

**Hall A**

- 14:00 Key anatomic structures of the urethra
- 14:15 Urethral structural disorders & diagnostic strategies
- 14:30 Current conservative management strategies & minimally invasive procedures
- 14:45 Urethroplasty techniques; outcome and gender specific considerations
- 15:00 Tissue engineering approaches & biomaterials to restore urethral integrity
- 15:15 Discussion
- 15:30 *Coffee break*

**14:00 - 15:30 | WS 2 Pelvic Floor Rehabilitation - NON CME**

**Hall B**

- 14:00 Pelvic floor anatomy and biomechanics
- 14:15 Classification of pelvic floor dysfunctions and clinical diagnostic algorithm
- 14:30 Current rehabilitation strategies in the management of stress urinary incontinence
- 14:45 Overactive bladder and its rehabilitation
- 15:00 Pelvic organ prolapse and its rehabilitation
- 15:15 Physiotherapy Approaches in Chronic Pelvic Pain
- 15:30 *Coffee break*

**16:00 - 17.15 | WS 2 Pelvic Floor Rehabilitation - Practical Session - NON CME**

**Hall B**

- 16:00 Pelvic floor muscle assessment and exercise prescription with electromyographic biofeedback
- 16:15 Percutaneous and transcutaneous electrical stimulation methods in OAB
- 16:30 Planning of pessary, contam and cone applications in pelvic floor rehabilitation
- 16:45 Manual therapy methods in chronic pelvic pain
- 17:00 Questions and Discussion

**16.00-17.00 | Experts Video Session 1**

**Hall A**

- 16.00 Video 1: Mete Güngör
- 16.07 Video 2: Emmanuel Delorme

- 16.49 Video 8: Ömer Gülpınar

## 17:00 – 18:15 | Session 2: Female Colorectal/Anal disorders

Hall A

- 17:00 Prevention of obstetric pelvic floor trauma
- 17:15 Key recommendations for the detection and repair of occult OASIs
- 17:30 Differential diagnosis & management of colorectal-anal dysfunction; what is the role of the posterior compartment?
- 17:45 Management of Anal Incontinence
- 18:00 Discussion

## Friday, November 21st

## 08:30-10:00 | Session 3: Urinary Incontinence

Hall A

- 08:30 Initial management and workout of female urinary incontinence
- 08:45 Clinical importance of screening women for incontinence subtypes
- 09:00 Prediction of MUS success in women, based on clinical assessment
- 09:15 How to manage recurrent SUI
- 09:30 The potential role of microbiota on LUT dysfunction
- 09:45 Discussion

## 09:00-10:00 | Abstract session 1 - NON CME

Hall B

10.00-10.30 Coffee Break

## 10.30-11.30 | Roundtable discussion with experts: Interpretation of case-based urodynamic traces

Hall A

## 10:30-11:15 | Abstract Session: Video Presentation - NON CME

Hall B

## 11:30 | Sponsored Session - NON CME

Hall A

## 12:00 – 13:00 Lunch

## 13:00 – 14:30 | Session 4: Pelvic Organ Prolapse

Hall A

- 13:00 Laparoscopic mesh sacrohystero/colpopexy; Update & Long-term outcomes
- 13:15 Alternative LS apical prolapse surgeries; when & how?
- 13:30 The vaginal approach to apical support defect
- 13:45 Robot-assisted pelvic floor reconstructive surgery; indications, surgical techniques, and the future
- 14:00 The role of deep learning for the diagnosis of pelvic organ prolapse and the prediction of outcome of prolapse surgery, where are we?
- 14:15 Discussion

**13.00-14.00 | Pelvic Anatomy Video Session. Video-based cadaver dissection - NON CME** **Hall B**

**14:30-15:30 | Roundtable discussion with experts: Interpretation of case-based pelvic floor ultrasound** **Hall A**

**14:30-15:06 | Moderated E-poster Session - NON CME** **Hall B**

**15.10-15.30 | Sponsored session/hands-on workshop - NON CME** **Hall B**

15:30 – 16:00 Coffee Break

**16:00 – 17:00 | Abstract session 2 - NON CME** **Hall A**

**16:00 – 18:00 | Workshop 3: Hands on training on training boxes: Basic laparoscopy & V-NOTES skills - NON CME** **Hall B**

**17:00 – 18:15 | Session 5: Dysfunction of the Urethra & Bladder** **Hall A**

- 17:00 Management of female voiding dysfunction
- 17:15 Clinical importance of phenotyping in the management of OAB
- 17:30 How to manage complications after anti-incontinence surgery
- 17:45 Recent updates on recurrent urinary tract infections
- 18:00 Discussion

## Saturday, November 22nd

**08:30-09:30 | Abstract session 3 - NON CME** **Hall A**

**08:30-09:30 | Abstract session 4 - NON CME** **Hall B**

**09:30 – 11.00 | Session 6: Chronic Pelvic Pain & Female Sexual Dysfunction** **Hall A**

- 09:30 Pelvic floor health and female sexual function
- 09:45 The overactive pelvic floor: evaluation & rehabilitation
- 10:00 Understanding the female bladder pain syndrome & novel treatment strategies
- 10:15 Promising role of regenerative medicine in pelvic floor dysfunction
- 10:30 The role of energy-based devices in female sexual dysfunction
- 10:45 Discussion

**11:00 – 11:30 Coffee Break**

**11:30 – 12:30 | Debate: Management strategies of refractory overactive bladder** **Hall A**
