Female Pelvic Floor Dysfunctions: An Update

Amman, Jordan | 26 and 27 October, 2017

Landmark Hotel

MIPS Chair: Professor Daa Rizk

JSOG president: Dr Mohammad Al-Madani

Local Organizer: Professor Ayman Al-Qatawneh

Dear Colleagues and Friends,

It gives me great pleasure as the President of the Mediterranean Incontinence and Pelvic Floor Society (MIPS) to cordially invite you to the first MIPS Educational course in Jordan hosted by the Jordanian Society of Obstetricians and Gynaecologists (JSOG). The venue is Amman, the capital city of Jordan and a modern metropolis with numerous ancient ruins from the Roman and Islamic Empires that was initially built on seven hills and their surrounding valleys. The meeting will be held on 26-27 October, 2017 in the Landmark Hotel. The scientific theme is "Female Pelvic Floor Dysfunctions: An Update". The announcement is posted on our website <http://www.mipsnet.org>.

The Host Chair, Professor Ayman Al-Qatawneh, in collaboration with the Executive and Scientific Committees of JSOG have organized an excellent course to introduce Urogynaecology in Jordan. The organizing committee has endeavoured to ensure that the scientific programme is specific to both physician educational needs and patient care priorities in Jordan. The course content covers all aspects of female Pelvic Floor Dysfunctions from chronic pelvic pain syndromes to imaging of the pelvic floor with a special emphasis on pelvic floor and perineal trauma, novel therapeutic technologies and surgical management options.

As an incontinence and pelvic floor care provider, we would like to invite you to attend our course in order to further the collaboration between incontinence physicians working in the Mediterranean region with a consequent positive impact on incontinence care and service delivery in the region. Ayman and I, as well as our colleagues from the JSOG, are very much looking forward to welcome you in Amman in October, 2017.

Daa E.E. Rizk
President, MIPS

Day 1- Thursday 26 October

- 10.00-10.30 Registration
10.30-11.00 Introduction and Welcome | D. Rizk, A. Al-Madani, A. Al-Qatawneh
